Response Summary:

The Data Visualization Process

This self-assessment feedback is instrument in designed to assess the following Knowledge Dimensions

A. Factual Knowledge	B. Conceptual Knowledge	C. Procedural Knowledge	D. Metacognitive Knowledge
The basic elements that students must know to be acquainted with a discipline or solve problems with it.	The interrelationships among the basic elements within a larger structure that enable them to function together.	How to do something; methods, inquiry, and criteria for using skills, algorithms, techniques, and methods.	Knowledge of cognition in general as well as awareness and knowledge of one's own cognition.

1. Student Information *

First Name	Connor
Last Name	Colbert
Major	Game Development and Design
Course *(e.g. CGT 270-001, CGT 270-LC)*	CGT 270
Term *(e.g. F2020)*	SP2022

2. Email Address *
(University Email Address is required.)
  colberj@purdue.edu

3. I can list the stages of the data visualization process. *
- Agree

3. List the stages of the data visualization process *
  Acquire, Parse, Filter, Mine, Represent, Critique, Refine

4. I can explain the interactions between each of the stages. *
- Strongly Agree

5. I can demonstrate my ability to apply each stage of the visualization process to a given dataset. *
- Strongly Agree

6. I can discuss how output from one stage impacts other stages in the data visualization process. *
- Agree

7. Based on my *understanding* of the data visualization process, I can critique the process implemented to visualize data. *
- Strongly Agree

8. Based on my _experience_ with the data visualization process, I can critique the output that results from applying the data visualization process. *

- Agree

9. What is the purpose of data visualization?(Use complete sentences) *

It provides viewers a clear and concise view of a portion of data to allow for a greater understanding of said data. It is intended to save time and provide an easier method of coming to a conclusion regarding the snippet of data.

10. Based on _my understanding and experience_ with the data visualization process, I can determine the value of the visualization process. *

- Strongly Agree
